Sbornik Statist] (USSR) 1960, no. 4. (Abstract available)

DESCRIPTORS: *Magnetic storms, *Terrestrial magnetism, Ionospheric disturbances, Catalogs, Analysis

A number of questions on the theory of geomagnetic storms was considered using the catalogs of geomagnetic storms for 1878-1959 as a basis. Besides the well-known cycle (11-year) variations, 30-year variations of summary duration of moderate storms were detected. Displacement of the maximum of a storm number in the 11-year cycle as to the maximum of related Sciences--Meteorology, TT, v. 11, no. 6)(over)
